

REGENT

Ornamental, majestic, and quietly bold

Regent is a collection that commands attention through refinement. Two striking mural compositions form the heart of the story. One sweeps across the wall in a grand fading tapestry of Kashmiri motifs, where swirling lines and layered contrasts evoke a sense of flowing silk and timeless grace. The other, a meditative symphony of mandala patterns, recalls vintage textile artistry, with sculptural elements emerging in three dimensional structures to add tactile depth and sacred rhythm.

Both murals are printed on refined textile wallcovering substrates, their richness balanced by a complementary metallic plissé design, pleated, luminous, and architectural. Regent is a meeting point of East and West, memory and modernity, a regal statement of design with quiet power and exquisite restraint.
